Maintech International

Corpus Christi – Maintech International L.L.C.™ has reached a contractual agreement to become an authorized distributor, repair and maintenance facility in South Texas market for Flowserve® Pumps. This association strengthens the sales and marketing network for Flowserve in South Texas, as well as recognizes Maintech's long-established reputation for quality customer service in the fluid motion and control products industry.

Maintech is authorized to provide units, parts, repair and service for most Flowserve pumping requirements. The Flowserve product brings many heritage names of distinction including ACEC, Aldrich, Byron Jackson, Cameron, Durco, IDP, Jeumont-Schneider, Pacific, Pleuger, Scienco, Sier-Bath Rotary, Simpson, United, Western Land Roller, Wilson-Snyder, and Worthington. No other company in the world has the depth or breadth of expertise in the successful application of pre-engineered, engineered and special purpose pumps and systems. Flowserve produces products for many industrial market segments; including oil & gas, hydrocarbon processing, chemical, power, mining and water resources.

Pump types include end suction centrifugal pumps, ANSI pumps, API-610 pumps, single stage centrifugal, multi stage centrifugals, horizontally split case, multi-stage diffuser pumps, multi stage ring sectional pumps, barrel pumps, vertical in-line pumps, vertical multi-stage pumps, slurry pumps, hard metal slurry pumps, rubber lined slurry pumps, vertical and horizontal process pumps.

Maintech International has been providing quality rotating equipment repair services since 1981. The current ownership and management assumed control in 1996. Since that time, the physical plant and facilities have doubled to approximately 25,000 square feet under roof and four acres of available surface area.

Headquartered in the heart of the South Texas petrochemical, refining and oilfield industries, Maintech personnel understand the importance of providing reasonable and reliable repair services. Their experienced, well-trained and quality-oriented craftsmen provide a complete, professional repair, on time and within budget, with each and every project. For more information, please contact Dick Lane, Vice President of Maintech International L.L.C. at 361 265-9901 or email dick@maintechintl.com (April Medina)
